Education

Washington University in St. Louis St. Louis, MO
M.S. in Computer Science, Expected Dec 2026 *Aug 2022 – Dec 2026*
B.S. in Computer Science, Dec 2025

- **Honors**: Danforth Scholar, Enterprise Scholar, Chancellor's Fellow, Bauer Fellow
- **Relevant Coursework**: DSA, Intro to AI, Intro to Data Science, Data Mining, Responsible Data Science, Mobile App Development, Quantum Computing, Digital Logic Design, Data Manipulation and Management

Experience

Graduate Researcher Jan 2026 – Present
Washington University in St. Louis - Advisor: Prof. Athena Tabakhi *St. Louis, MO*

- Researching selective prediction and abstention mechanisms in machine learning systems to evaluate whether AI models should ethically defer uncertain predictions.
- Implementing and evaluating deep learning classification models on the EuroSAT remote sensing dataset using TensorFlow and PyTorch to analyze confidence, calibration, and abstention behavior.

Teaching Assistant Aug 2023 – Present
McKelvey School of Engineering, WashU *St. Louis, MO*

- Head TA for CSE 412 (Intro to Artificial Intelligence) and CSE 3050 (Responsible Data Science); additionally served as a TA for Mobile App Development, Computer Engineering, and Intro to Data Science courses.

Software Developer Feb 2025 – Dec 2025
Portal Career Discovery (portalcareerdiscovery.com) *St. Louis, MO*

- Developed scalable full-stack features for an AI-driven career exploration platform using React, TypeScript, Node.js, and PostgreSQL, supporting 5K+ users across WashU and ASU.
- Built an AI skill development module and recommendation feature system enabling personalized career matches and Q&A across 250+ careers.

Co-Founder & Developer Mar 2025 – Aug 2025
Tri-Snap, Antler Accelerator-backed Startup (tri-snap.com) *New York, NY*

- Led engineering for *Luna*, an AI-powered medical triage iOS application integrating Swift, CoreML, and LLM-based symptom classification workflows.
- Built machine learning pipelines for patient intake support and healthcare decision assistance in collaboration with clinicians at Cornell Medicine.

Data Analyst Intern May 2024 – Feb 2025
Cobbs Creek Healthcare *Philadelphia, PA*

- Designed healthcare analytics dashboards using PostgreSQL, Python, and Dash to analyze 10k+ patient records for AstraZeneca and J&J.
- Applied NLP and sentiment analysis techniques using NLTK and scikit-learn on healthcare reviews from WebMD of prescription drugs.

GRC Security Analyst Intern Oct 2023 – May 2025
Office of Information Security, WashU *St. Louis, MO*

- Conducted 50+ risk assessments for University systems and AI products using OneTrust; reviewed cloud architecture and alignment with NIST and HIPAA standards.

Machine Learning Developer Dec 2024 – May 2025
Engineering Test Kitchen, WashU *St. Louis, MO*

- Collaborated with WashU's Engineering Test Kitchen to develop a YOLOv8-based computer vision pipeline for automated wood inventory detection, achieving 95% detection accuracy and reducing inspection time from 3 hours to minutes.

Technical Skills

Languages: Python, SQL, TypeScript, Java, C++, R, Swift
Frameworks & Tools: React, Node.js, PostgreSQL, TensorFlow, PyTorch, OpenCV, YOLOv8, scikit-learn, Docker, Git, Firebase, WebRTC
